

VP Global Health FAQ:

Question 1: Who is part of ASoc Global Health?

Our team is the Global Health Sr., Global Health Jr., a Global Health assistant who helps the Global Health Jr., 1-2 Global Health Advocates and our Local Officers. Local Officers roles are Jr. and Sr., and include the Local Exchange Officer (LEO), the Local Officer of Global Health Education (LOGHE), the Local Officer of Reproductive and Sexual Health (LORSH), and the Local Officer of Indigenous Health (LOIH). Local Officer positions are outlined through the CFMS and have student roles in all Canadian medical schools.

Question 2: What is global health?

Global Health seeks to research, understand, and address health inequities and barriers to access for populations worldwide. This includes improving the health of vulnerable populations within Canada as well as internationally.

Question 3: What are your main events during the year?

Events change year to year, but every Fall we host the Annual Action Global Health Network Conference (uOttawa Global Health Conference). In January, we host the uOttawa Humanitarian Month with talks on topics such as Doctors Without Borders and International Research and Healthcare. Be sure to be on the lookout for our workshops, research opportunities, leadership roles, international electives and so much more!
